

Annotated subset of the fixed xylem programme

A Frozen mapping B Class C Descriptive functional annotation

6/8 annotated orthogroups map in all three validation species

	Ath	Esa	Sir	Spa	Annotation available	
2. OG0001788						xylem cysteine peptidase 1; xylem cysteine peptidase 2
3. OG0001353						UDP-D-glucuronate carboxy-lyase-like protein; UDP-XYL synthase 5; UDP-XYL synthase 6
4. OG0000478						FASCICLIN-like arabinogalactan-protein 11; FASCICLIN-like arabinogalactan-protein 12
5. OG0000555						UDP-glucose 6-dehydrogenase family protein; UDP-glucose dehydrogenase; UDP-glucose dehydrogenase 1
6. OG0000146						Bifunctional inhibitor/lipid-transfer protein/seed storage 2S albumin superfamily protein
9. OG0000560						arabinogalactan protein 12; arabinogalactan protein 13; arabinogalactan protein 21
10. OG0000074						Disease resistance-responsive (dirigent-like protein) family protein
18. OG0000891						NAD(P)-binding Rossmann-fold superfamily protein; NmrA-like negative transcriptional regulator family...

Annotations are descriptive and non-causal;
they do not establish paralog replacement.
